

! Evacuation from the front-line regions increased sharply — Ukrzaliznytsia.

!! In July, Ukrzaliznytsia evacuated 1,239 people from the front-line regions, which is almost twice as much as the monthly average this year. The number of evacuees from Dnipropetrovsk region increased the most (three times), Zaporizhzhia — almost doubled. Residents of Kharkiv, Sumy, and Kherson regions also leave. The reason is the increase in shelling.

Ukraine returned a group of Ukrainian children from the temporary occupied territory, — OP

Among them is a 15-year-old girl who wore an embroidered shirt to a Russian school, defending her pro-Ukrainian position. She was brutally harassed and beaten, and teachers wrote denunciations and threatened her mother with deprivation of parental rights.

Two more rescued are a 4-year-old girl and her 8-year-old brother, who were threatened with being taken away from their family for refusing to attend a Russian school. A 17-year-old boy was among returned, who managed to avoid forced conscription into the Russian army, because he had already been issued a summons.

Zaporizhzhia region is proud of them: despite the war and shelling, Zaporizhzhia athletes take victories from all over the world to their hometown.

All of them are IDPs. They came from Donetsk, Orikhiv, and Melitopol and became world champions among children, youth and juniors. The IDPs are the bravest and the strongest.

Sincere congratulations and gratitude to the winners and their coaches. Zaporizhzhia is proud of your victories.

«Do not be led by the tricks of the Russians». Usyk called on schoolchildren who are recruited by the special services of the Russian Federation to contact the SSU and the National Police. **«If you are recruited to fire something or for terrorist attacks, asked to move an unknown package somewhere — immediately inform your parents, teachers, contact the The Security Service of Ukraine and the police. To be cool is to have your mind about you»**, — said the champion during an all-Ukrainian online lesson together with the SSU, the National Police and the Ministry of Education. Today, in all schools of Ukraine, students received specific advice on how not to get hooked on the FSS and not to become a suicide bomber. Because if you work for Russians — the final is predictable — death or injury. When lucky — a prison with a long-term imprisonment. After all, the SBU and the National Police find all the recruited. Moreover, last year and a half, officers detained more than 600 traitors who, on the instructions of the enemy, set fire to the premises of the Territorial Center of Recruitment and Social Support and the police, committed sabotage and prepared terrorist attacks in Ukraine.

Tell your children about the information campaign «Fire FSS» and show them a video of the online lesson.
